Gemmologist, HRD Graduate  
Member NCJV WA Division  
Member GAA WA Division

The diamond/gemstone weights colour and clarity are estimated, exact measurements could not be obtained due to setting restrictions. Based on the current value at the time of valuation and includes Australian Government taxes where applicable. This valuation is not suitable for any other purpose(s) than stated above and should not be relied on by any entity besides the addressee unless specifically noted. Due to the high probability/possibility of undisclosed 'salted/mixed' parcels in the current local and international market of Laboratory grown diamonds with natural mined diamonds and high degree of difficulty identifying these stones, no liability is taken by the valuer and/or business named on this certificate/valuation/document, the identification is limited by restrictions imposed by the settings, size of the stone/stones and current equipment available to trade gemmologists. Whilst all due diligence is practised and stringent guidelines are adhered to for best practise, in accordance with the NCJV code of ethics, further advanced gemmological testing (at the owner/s expense) using specialised equipment may/is required for positive identification.

**ADGL**  
Australian Diamond Grading Laboratory  
www.adgl.com.au

Cut grade calculated by  
GIA Facetware™

The following were, at the time of examination by the Australian Diamond Grading Laboratory (ADGL), the characteristics of the diamond described herein using the following equipment: 10x magnification (fully corrected triplet loupe and binocular microscope), diamondlite, diamond colour master stones and digital diamond colour grading machine, ultraviolet lamps, millimetre gauge, carat balance, OGI MegaScope Proportion Analyser and ancillary instruments as necessary.

This diamond has been graded under the internationally recognised standards of the 4Cs; Carat Weight, Colour, Clarity and Cut. This report is not a valuation or appraisal. The recipient of the report may wish to consult an accredited jeweller or gemmologist about the importance and interrelationship of cut, colour, clarity and carat weight.

The characteristics for this diamond have been established in accordance with strict guidelines for quality control and using scientific methods together with state of the art technology.
