### Valuation for Traditional Retail Insurance Replacement

#### Item 1

One, hand-assembled, 10ct white gold, multi-stone ring set. The set comprising a 10ct white gold diamond set engagement ring, with a fitted and matching 10ct white gold wedding ring. Each ring having a plain, low half round band, with a combined basal width of 6.27mm x 1.20mm in depth.

The engagement ring has a central four claw setting, housing one square cut and faceted treated black diamond type material, claw set. Surrounded by twenty round brilliant cut diamonds, also claw set. The base being of a fine multi-wire support. All secured between the 'ramp' style shoulders of the plain and polished band. Fitted and matching wedding ring having a cut-out to one side at the centre top. The wedding ring sits alongside the engagement ring above.

Polished finish - stamped '10ct 14K 585 37 D0.19ct' (on engagement ring), '10K michael hill' (on wedding ring) - acid tested as approximately 10 carat gold. Finger size is Q.

The ring contains:

One claw set Princess cut treated black diamond type material.

Dimensions = 5.45mm(L) x 5.45mm(W) x 5.11mm(D-estimated) x 3%(Girdle Thickness)

Total Weight = 1.25ct (estimated - see NOTE below)

Twenty claw set round brilliant cut diamonds, clarity 'P3', colour 'H to I' (mixed).

Dimensions (average) = 1.05mm(Dia) x 0.61mm(D-estimated) x 2%(Girdle Thickness)

Total Weight = 0.13ct (estimated - see NOTE below)

Total Item Weight = 6.20 grams - Total Gemstone Weight = 1.38ct - Total Metal Weight = 5.93 grams (estimated)

NOTE: The black gemstone may possibly be treated black diamond or treated synthetic black moissanite. Limited testing, whilst set, cannot determine the nature of these gemstones. Therefore, the black gemstones require removal from their settings for full and accurate gemmological testing. Due to setting constraints, the exact dimensions of the gemstones cannot be ascertained. Therefore, weights of the gemstones are very much estimated. For accurate testing, weights, colour, and clarity gradings, the gemstones require removal from the settings. The below replacement figure is based upon crafting a similar ring employing similar materials and techniques being for a retail insurance purpose only. This figure does not represent the previous selling price of the item and will not be indicative of the resale value of the item.

**Insurance Replacement Valuation \$2,475.00**

The total of the one item included in this valuation is Two Thousand Four Hundred and Seventy Five dollars.

**Total Value = \$2,475.00**

The article(s) described above have been examined and the values given are an expression of our opinion on the date stated. Gemstones have not been removed from the settings for accurate assessment and all grades, weights, and dimensions are approximate, unless otherwise stated. Whilst all care has been taken in making this valuation, no liability is accepted other than to the person to whom the certificate is given for any errors or omissions, including any liability to the person by reason of negligence. This valuation is NOT transferable to any third person or party. Values expressed in Australian dollars (including GST) and are based on current market conditions. This valuation has been made with the standards and methods of the National Council of Jewellery Valuers, using accepted procedures, and systems advocated by this organisation. The values are based on the valuer's judgment of gemstone quality, mounting and manufacturing costs and are made to the best of the valuer's ability. A diamond colour grading of "F" (Rare White Plus) or better and a clarity grading of Vvs (or better), cannot be given to a set diamond. A valuation of a certified diamond is based upon the gradings provided on the certificate. The replacement figure of older cut diamonds is based upon the modern cut equivalent of same estimated weight, colour, and clarity. A valuation for Traditional Retail Insurance Replacement does not infer any saving on a purchase price and will not be indicative of the resale value of the item.
