NOTE: The rubies appears to have been enhanced by means of filling with a glass type substance. This treatment is not stable and can be damaged by heat or ultrasonic frequencies. A treated ruby of this type is not commercially available in Australia. Due to setting constraints, the exact dimensions of the gemstones cannot be ascertained. Therefore, weights of the gemstones are very much estimated. For accurate testing, weights, colour, and clarity gradings, the gemstones require removal from the settings. The below replacement figure is based upon crafting a similar pendant employing similar materials and techniques and based upon procuring a similar treated ruby from an overseas source. This figure includes the currency conversion, import duty, and GST. This figure does not represent the previous selling price of the ruby and will not be indicative of the resale value of the item.
