Therefore, weights of the gemstones are very much estimated. For accurate testing, weights, colour, and clarity gradings, the gemstones require removal from the settings. The below replacement figure is based upon crafting a similar pendant employing similar materials and techniques and based upon procuring a similar treated ruby from an overseas source. This figure includes the currency conversion, import duty, and GST. This figure does not represent the previous selling price of the ruby and will not be indicative of the resale value of the item.
