Diamond clarity grades are based on 10x magnification by an experienced observer. Colour grading is by comparison to 'Master' colour diamonds.

Discrepancies in diamond grading may occur when diamonds are set due to the colour of the precious metal and restrictions of the setting. The precious metal purity is that marked on the article. When testing of the precious metal is considered necessary the results are approximate.

This valuation is for the sole use of the above name and shall not be reproduced except in its entirety.

The valuer cannot accept responsibility for any transaction or third party relying on this document.
