The article(s) described above have been examined and the values given are an expression of our opinion on the date stated. Gemstones have not been removed from the settings for accurate assessment and all grades, weights, and dimensions are approximate, unless otherwise stated. Whilst all care has been taken in making this valuation, no liability is accepted other than to the person to whom the certificate is given for any errors or omissions, including any liability to the person by reason of negligence. This valuation is NOT transferable to any third person or party. Values expressed in Australian dollars (including GST) and are based on current market conditions. This valuation has been made with the standards and methods of the National Council of Jewellery Valuers, using accepted procedures, and systems advocated by this organisation. The values are based on the valuer's judgment of gemstone quality, mounting and manufacturing costs and are made to the best of the valuer's ability. A diamond colour grading of "F" (Rare White Plus) or better and a clarity grading of Vvs (or better), cannot be given to a set diamond.
