ADGL

Australian Diamond Grading Laboratory

www.adgl.com.au

Cut grade calculated by
GIA Facetware™

The following were, at the time of examination by the Australian Diamond Grading Laboratory (ADGL), the characteristics of the diamond described herein using the following equipment: 10x magnification table-mounted triple-logic and binocular microscope; diamond colour master stones; diamond colour grading machine; ultraviolet lamps; millimeter ruler; carat balance; OGI MegaScope Proportional Analyser and auxiliary instruments as necessary.

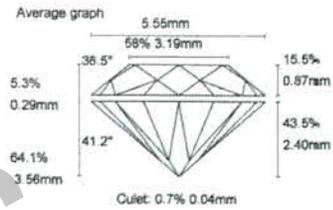

This diamond has been graded under the internationally recognised standards of the GIA® Carat-Weight, Colour, Clarity and Cut. This report is not a valuation or appraisal. The recipient of the report may wish to consult an accredited jeweller/gemologist about the importance and interrelationship of cut, colour, clarity and carat weight.

The characteristics for this diamond have been established in accordance with strict guidelines for quality control and using scientific methods together with state-of-the-art technology.
