One claw set round natural emerald, colour is "green"

Dimensions = 2.50mm(Dia) x 1.53mm(D-estimated)

Total Weight = 0.05ct (estimated - see NOTE below)

Total Item Weight = 13.44 grams Total Gemstone Weight = 3.89ct Total Metal Weight = 12.66 grams (estimated)

NOTE: Limited gemmological testing inset. This piece is believed to be of asian manufacture, and would be extremely difficult to replicate in Australia. The replacement figure is therefore based upon procuring from overseas a similar piece, allowing for precious metal content and minimum hours of manufacture. Due to setting constraints, the exact dimensions of the gemstones cannot be ascertained. Therefore, weights of the gemstones are very much estimated. For accurate testing, weights, colour, and clarity gradings, the gemstones require removal from the settings. The below replacement figure is based upon crafting a similar bangle employing similar materials and techniques being for a retail insurance purpose only. This figure does not represent the previous selling price of the item and will not be indicative of the resale value of the item.

The article(s) described above have been examined and the values given are an expression of our opinion on the date stated. Gemstones have not been removed from the settings for accurate assessment and all grades, weights, and dimensions are approximate, unless otherwise stated. Whilst all care has been taken in making this valuation, no liability is accepted other than to the person to whom the certificate is given for any errors or omissions, including any liability to the person by reason of negligence. This valuation is NOT transferable to any third person or party. Values expressed in Australian dollars (including GST) and are based on current market conditions. This valuation has been made with the standards and methods of the National Council of Jewellery Valuers, using accepted procedures, and systems advocated by this organisation. The values are based on the valuer's judgment of gemstone quality, mounting and manufacturing costs and are made to the best of the valuer's ability. A diamond colour grading of "F" (Rare White Plus) or better and a clarity grading of Vvs (or better), cannot be given to a set diamond. A valuation of a certified diamond is based upon the gradings provided on the certificate. The replacement figure of older cut diamonds is based upon the modern cut equivalent of same estimated weight, colour, and clarity. A valuation for Traditional Retail Insurance Replacement does not infer any saving on a purchase price and will not be indicative of the resale value of the item.
