Valuation for Traditional Retail Insurance Replacement

Item 1

One, 14ct white gold, gem set, multistone ring, of cast construction.

Plain, narrow, low half round, tapered band of 1.43mm width (at base) x 0.75mm depth.

Feature central five claw setting, housing one pear shaped fracture filled diamond, claw set. The setting is secured between the shoulders of the plain and polished band. Each of the shoulders house one row of six round brilliant cut diamonds, claw set.

Polished finish.

Stamped '585' - acid tested as 14 carat gold.

Ring size: N 1/2.

The ring contains:

One claw set pear shaped fracture filled diamond.

Dimensions = 9.03mm(L) x 5.76mm(W) x 3.95mm(D-estimated) x variable 1-3%(Girdle Thickness)

Total Weight = 1.24ct (estimated - see NOTE below)

Twelve claw set round brilliant cut diamonds, clarity is "Si & P1 & P2" (mixed), colour is "H to J" (mixed).

Dimensions (average) = 1.15mm(Dia) x 0.70mm(D-estimated) x 2%(Girdle Thickness)

Total Weight = 0.08ct (estimated - see NOTE below)

Total Item Weight = 1.88 grams Total Gemstone Weight = 1.32ct Total Metal Weight = 1.62 grams (estimated)

NOTE: Due to setting constraints, the exact dimensions of the centre fracture filled diamond cannot be ascertained. Therefore, the weight of the centre fracture filled diamond is very much an estimation. The centre fracture filled diamond has been enhanced by means of filling with a glass type substance. This treatment is not stable and can be damaged by heat or ultrasonic frequencies. Due to this filling, colour and clarity gradings have not been assigned. Due to setting constraints, the exact dimensions of the diamonds cannot be ascertained. Therefore, weights of the diamonds are very much estimated. For accurate testing, weights, colour, and clarity gradings, the diamonds require removal from the settings. The below replacement figure is based upon crafting a similar ring employing similar materials and techniques being for a retail insurance purpose only. This figure does not represent the previous selling price of the item and will not be indicative of the resale value of the item.

Insurance Replacement Valuation \$5,250.00

The total of the one item included in this valuation is Five Thousand Two Hundred and Fifty dollars.

Total Value = \$5,250.00

These items were valued for Cash Converters

The article(s) described above have been examined and the values given are an expression of our opinion on the date stated. Gemstones have not been removed from the settings for accurate assessment and all grades, weights, and dimensions are approximate, unless otherwise stated. Whilst all care has been taken in making this valuation, no liability is accepted other than to the person to whom the certificate is given for any errors or omissions, including any liability to the person by reason of negligence. This valuation is NOT transferable to any third person or party. Values expressed in Australian dollars (including GST) and are based on current market conditions. This valuation has been made with the standards and methods of the National Council of Jewellery Valuers, using accepted procedures, and systems advocated by this organisation. The values are based on the valuer's judgment of gemstone quality, mounting and manufacturing costs and are made to the best of the valuer's ability. A diamond colour grading of "F" (Rare White Plus) or better and a clarity grading of Vvs (or better), cannot be given to a set diamond. A valuation of a certified diamond is based upon the gradings provided on the certificate. The replacement figure of older cut diamonds is based upon the modern cut equivalent of same estimated weight, colour, and clarity. A valuation for Traditional Retail Insurance Replacement does not infer any saving on a purchase price and will not be indicative of the resale value of the item.
