Valuation for Traditional Retail Insurance Replacement

Item 1

One, 18ct yellow and white gold, multi-stone, ring set, of hand assembled construction.

The set comprising a 18ct yellow gold and white gold diamond set engagement ring with fitted and matching 18ct yellow and white gold diamond set wedding and eternity rings. Each ring having a plain, narrow, flat, tapered band with a combined basal width of 5.96mm x 0.78mm depth. The engagement ring has a white gold top plate, with a central raised four claw setting, housing one oval corundum doublet, claw set. Surrounding is one row of ten round brilliant cut diamonds, claw set. The top plate has an open wire base, and is secured between the extended and pointed shoulders of the yellow gold band.

The fitted and matching wedding and eternity rings are identical. There is one curved row of white gold four claw settings, each housing alternating round sapphires, and round brilliant cut diamonds, claw set. There are a total of six sapphires, and four round brilliant cut diamonds. The settings are secured to the underrail, and in between the extended and pointed shoulders of the yellow gold band. The wedding and eternity rings sit alongside the engagement ring above.

Polished finish. Stamped '18CT HANDWROUGHT M PLAT 750 13261(engraved)' - acid tested and x-rayed. Ring size: Q.
The ring contains:

One claw set oval shaped corundum doublet, colour is "blue".

The article(s) described above have been examined and the values given are an expression of our opinion on the date stated. Gemstones have not been removed from the settings for accurate assessment and all grades, weights, and dimensions are approximate, unless otherwise stated. Whilst all care has been taken in making this valuation, no liability is accepted other than to the person to whom the certificate is given for any errors or omissions, including any liability to the person by reason of negligence. This valuation is NOT transferable to any third person or party. Values expressed in Australian dollars (including GST) and are based on current market conditions. This valuation has been made with the standards and methods of the National Council of Jewellery Valuers, using accepted procedures, and systems advocated by this organisation. The values are based on the valuer's judgment of gemstone quality, mounting and manufacturing costs and are made to the best of the valuer's ability. A diamond colour grading of "F" (Rare White Plus) or better and a clarity grading of Vvs (or better), cannot be given to a set diamond. A valuation of a certified diamond is based upon the gradings provided on the certificate. The replacement figure of older cut diamonds is based upon the modern cut equivalent of same estimated weight, colour, and clarity. A valuation for Traditional Retail Insurance Replacement does not infer any saving on a purchase price and will not be indicative of the resale value of the item.
