NOTE: The centre diamond has been enhanced by means of filling with a glass type substance. This treatment is not stable and can be damaged by heat or ultrasonic frequencies. Due to this filling colour and clarity gradings have not been assigned. Due to setting constraints, the exact dimensions of the diamonds cannot be ascertained. Therefore, the weights of the diamonds are very much an estimation. The below replacement figure is based upon crafting a similar ring employing similar materials and techniques with a fractured filled diamond of similar appearance being for a retail insurance purpose only. This figure does not represent the previous selling price of the item and will not be indicative of the resale value of the item.

The replacement figure of older cut diamonds is based upon the modern cut equivalent of same estimated weight, colour, and clarity. A valuation for Traditional Retail Insurance Replacement does not infer any saving on a purchase price and will not be indicative of the resale value of the item.
