Valued by Rebecca Macham FGAA. NCJV Reg Valuer WA0063

Gemstones have not been removed from the settings for accurate assessment, all grades and weights are approximate. Valuation is based on the current value at the time of valuation and includes Australian Government Taxes where applicable.

This valuation is not suitable for any purpose other than the purpose(s) stated above and should not be relied on by an entity besides the addressee unless specifically noted. Due to the high probability/possibility of undisclosed 'salted mixed' parcels in the current local and international market of Laboratory grown diamonds with natural mined diamonds and high degree of difficulty identifying these stones, no liability is taken by the valuer and/or business named on this certificate/valuation/document, the identification is limited by restrictions imposed by the settings, size of the stone/stones and current equipment available to trade gemmologists. Whilst all due diligence is practised and stringent guidelines are adhered to for best practise, in accordance with NCJV code of ethics, further advanced gemmological testing (at the owner's expense) using specialised equipment may/is required for positive identification.
