Diamond clarity grades are based on 10x magnification by an experienced observer. Colour grading is by comparison to 'Master' colour diamonds.

Discrepancies in diamond grading may occur when diamonds are set due to the colour of the precious metal and restrictions of the setting. The precious metal purity is that marked on the article. When testing of the precious metal is considered necessary the results are approximate.

This valuation is for the sole use of the above name and shall not be reproduced except in its entirety.

The valuer cannot accept responsibility for any transaction or third party relying on this document.

When photographs of items are supplied, the original may not be true to size. Colours may vary due to the limitations of the photographic reproduction.

Whilst every care has been taken in the preparation of this valuation, no liability is accepted for any statement or opinion or for any error or omission. The grade, weight and dimensions of the gemstones not removed from settings are approximate.

All conclusions are substantiated by careful examination of the items within limitations imposed by their settings using appropriate gemological and scientific testing methods. The values and descriptions stated are opinions.

Replacement values may not necessarily represent the price one might pay in a retail showroom after negotiations between a buyer and seller.

Valuations may be affected by fluctuations in the current exchange rate.

The values stated do not represent the value one would expect if the items were sold on the second-hand market or internet.
